**Final RFI Waste Accumulation Areas Work Plan**

Dear Mr. Dunkle:

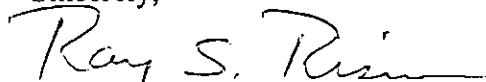

The Texas Natural Resource Conservation Commission ("TNRCC") has received the Final Work Plan for the RCRA Facility Investigation ("RFI") Waste Accumulation Areas for NAS Fort Worth JRB, submitted by the Air Force Center for Environmental Excellence ("AFCEE") letter dated November 16, 1998. Included with the transmittal are AFCEE's itemized responses to the TNRCC Work Plan approval with modifications letter of October 14, 1998.

It is our understanding that the newly revised and Final Work Plan was created to direct the RFI, primarily for the consultants in the field. The TNRCC has reviewed AFCEE's itemized responses, which appear to have appropriately addressed the TNRCC's modifications. Please proceed with the investigations and note that the report will be reviewed with respect to the Final Work Plan, AFCEE's itemized responses, the TNRCC approval letter dated October 14, 1998, and the Risk Reduction Rules.
